- 12:45–12:50 **Prof. Dr. Frank Cichos**
Welcome
- 12:50–13:30 **Dr. Albert Smith-Penzel (TP1)**
“Detector analysis: Characterizing complex motions with multiple methods”
- 13:30–13:50 **Alaa Hassan (TP2)**
“Highly sensitive dielectric spectroscopy on conducting polymers”
- 13:50–14:10 **Dr. Martin Göse (TP3)**
“Development and application of single molecule conformational spectroscopy”
- 14:10–14:30 **Benjamin Faselow (TP4)**
“Highly parallel single molecule traps for the study of macromolecular dynamics”
